NIMHANS Bengaluru Visit

To foster clinical competence, students of Housabai College of Physiotherapy participated in an educational visit to the National Institute of Mental Health and Neurosciences (NIMHANS), Bengaluru. This experiential learning opportunity exposed them to advanced neuro-rehabilitation techniques, diagnostic tools, and interdisciplinary healthcare models. Such institutional visits are an integral part of our curriculum, equipping students with the practical expertise and clinical confidence needed to excel in the healthcare field.

3rd IAP Conference Delhi

Believing that education extends beyond textbooks, Housabai College of Physiotherapy facilitated student participation in the prestigious 3rd National IAP Women Cell Conference & Physio Manthan in New Delhi. This premier summit provided students with exposure to contemporary research, innovative rehabilitation technologies, and discussions led by healthcare experts. Participation in such national platforms helps develop the clinical insight, professional network, and leadership skills essential for success in the modern healthcare ecosystem.

JG PhysioCon Ahmedabad

Committed to developing future-ready healthcare professionals, Housabai College of Physiotherapy sponsored student participation at JG PhysioCon, a premier National Physiotherapy Conference. This national forum provided students with opportunities to present scientific posters, discuss contemporary case studies, and interact with leading academicians. Such participation enhances critical thinking, technical expertise, and the clinical insight needed to lead the next generation of evidence-based physiotherapy.

Physionova 2.0 conference in Bharati Vidyapeeth, Sangli

Fostering academic curiosity and clinical excellence, Housabai College of Physiotherapy facilitated student participation in Physionova 2.0, organized by Bharati Vidyapeeth (DU) School of Physiotherapy, Sangli. This symposium provided students with exposure to contemporary research, prototype exhibitions, and specialized hands-on workshops. Participation in such academic platforms helps students translate innovation into compassionate, evidence-based patient care.

Thank you !

For exploring our prospectus

At our college, we believe in nurturing knowledge, building character and inspiring excellence. We are committed to empowering you with the skills, values and confidence to lead and make a positive difference in the world.
